New Modern Vidhya Mandir Higher Secondary School, Puducherry

March 2020

- Higher Secondary
- Percentage of 79

New Modern Vidhya Mandir Higher Secondary School, Puducherry

March 2018

- High School
- Percentage of 89.4

TECHNICAL SKILLS

Languages : C , C++ , Python(Beginner)

Fundamentals : Database MySQL, Data structures

Web Development : HTML, CSS, JS

EXPERIENCE

Askan Technologies, Puducherry

Dec 2022 – Jan 2023

My task is to develop Weather Now, a user-friendly Flutter app for real-time weather updates, forecasts, and personalized alerts. It seamlessly integrates with reliable weather APIs, offering a cross-platform experience with Google Maps for spatial weather visualization.

Askan Technologies, Puducherry

Jan 2023

I successfully developed a React application named "Data Display." aimed to fetch data from a designated API, showcasing proficiency in React.js and Axios for seamless calls. The application dynamically presents information, demonstrating expertise in creating responsive and dynamic user interfaces.

PROJECTS

Library Management System

- Developed a Library Management System featuring user authentication, book management, and admin tools.
- Designed with a responsive user interface for seamless data presentation.
- HTML, CSS, JS, PHP and MySQL.

Online Handicraft Management System

- Developed an Online Handicraft Management System, an e-commerce platform connecting artisans and customers.
- Proposed enhancements include creative learning through small handicraft video tutorials with interactive user interface.
- HTML, CSS, JS, PHP and MySQL.

ACHIEVEMENTS

Institution's Innovation Council (IIC)

- Secured first place in technical connection quiz organized by PTU.

CERTIFICATIONS

- **NPTEL** – Introduction to cognitive Psychology
- **NPTEL** – Forest and their Management.
- **NIT, Karaikal** – Workshop on AWS.

AREA OF INTEREST

- Enthusiastic front-end developer skilled in creating engaging and responsive user interfaces, contributing to cutting-edge projects.
